Section 4. First-Aid Measures

**Eye Contact:** Immediately flush eyes with water while lifting the upper and lower lids. If irritation persists, seek medical attention.

**Skin Contact:** Wash with soap and water. Remove contaminated clothing and launder before reuse. Get medical attention if irritation develops or persists.

**Inhalation:** If symptoms of exposure develop, remove to fresh air. If breathing becomes difficult, administer oxygen and seek medical attention.

**Ingestion:** Rinse mouth with water. Do not induce vomiting unless directed to do so by a medical professional. Get medical attention if symptoms develop.

**Most important symptoms/effects, acute and delayed:** Causes skin irritation. May cause slight eye irritation. Inhalation of vapors may cause upper respiratory tract irritation. May be harmful if swallowed.

**Indication of immediate medical attention and special treatment, if necessary:** No immediate medical attention is required.

---

**SECTION 5 FIRE and EXPLOSION HAZARD DATA**

**Suitable extinguishing media:** Use water fog, carbon dioxide, alcohol-foam or dry chemical to extinguish the fire.

**Specific hazards arising from the chemical:** Product is not flammable. Burning may produce carbon monoxide, carbon dioxide, and nitrogen oxides.

**Special protective equipment and precautions for fire-fighters:** Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus.

---

**SECTION 6 ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment, and emergency procedures:** Ventilate area. Wear appropriate protective clothing and equipment (See Section 8).

**Environmental hazards:** Prevent runoff to storm sewers and ditches leading to natural waterways. Report spill as required by local and federal regulations.

**Methods and materials for containment and cleaning up:** Collect material using inert absorbents and dispose of in a suitable container.

---

**SECTION 7 HANDLING and STORAGE**

**Precautions for safe handling** Avoid contact with the eyes, skin and clothing. Avoid breathing vapors or mists. Use only with adequate ventilation. Remove and launder contaminated clothing before re-use. Wash exposed skin with soap and water after use.

Empty containers retain product residues. Do not cut, weld, braze, etc. on or near empty containers. Follow all SDS precautions in handling empty containers.

**Conditions for safe storage, including any incompatibilities:** Protect containers from physical damage. Store in a cool, well ventilated area away from oxidizing agents and other incompatible materials.

---

**SECTION 8 EXPOSURE CONTROLS and PERSONAL PROTECTION**

**Exposure guidelines:**

Benzyl Alcohol | None Established
--- | ---
Kaolin | 2 mg/m³ TWA ACGIH TLV (Respirable)
 | 15 mg/m³ TWA OSHA PEL (Total dust)
 | 5 mg/m³ TWA OSHA PEL (Respirable)

**Appropriate engineering controls:** Good general room ventilation should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

**Individual protection measures, such as personal protective equipment:**

*Respiratory Protection:* Good general ventilation should be adequate under normal conditions. In operations where exposure limits are exceeded, a NIOSH approved respirator with particulate cartridges or supplied air respirator appropriate for the form and concentration of the contaminants should be used. Selection and use of respiratory equipment must be in accordance with OSHA 1910.134 and good industrial hygiene practice.

*Skin protection:* Impervious gloves such as butyl rubber are recommended for operations which may result in prolonged or repeated skin contact.

*Eye protection:* Chemical safety glasses with side-shields are recommended if splashing may occur.

*Other:* Appropriate protective clothing as needed to prevent prolonged/ repeated skin contact. Suitable washing and eye flushing facilities should be available in the work area.
